EDUCATION

University of Washington Bothell

Graduated Aug 2026

B.A. Business Administration | Academic focus: Finance & MIS | GPA 3.64/4.00 | Dean's List 2024-2025

Relevant coursework: Operations & Project Management | Database Systems | Business Statistics | Software Engineering | Business Finance

PROFESSIONAL EXPERIENCE

United Indians of All Tribes Foundation

Nov 2023-Nov 2025

Garden Intern Supervisor | Seattle, WA

- Standardized an online-form/Excel reporting workflow, cutting quarterly preparation time by **approximately 83-92%** while adding validation and error-control workflows
- Developed the proposal/budget for an awarded **\$73,000 grant**; tracked spending, coordinated purchases with accounting/management, and completed 8 quarterly compliance reports across overlapping grant cycles
- Designed, onboarded, and managed an **8-person contracted intern workforce** through a 6-week program, including schedules, check-ins, feedback, performance tracking, and daily supervision

N&M Events

Jun 2023-Present

Event Staff / Operations Support | Kent, WA

- Supported **50+ private, cultural, and corporate events** for roughly 10-200 attendees through setup, equipment, transportation, inventory, and rapid day-of adjustments
- Worked with clients and event teams to translate changing needs into practical logistics decisions in time-sensitive live environments

PRODUCT, DATA & AI PROJECTS

System — Personal Data & Analytics Platform

Aug 2026-Present

Personal software/product project | Kotlin Multiplatform, SQLDelight, Supabase/Postgres

- Owned product requirements, UI/design flows, analytics rules, offline/sync semantics, and acceptance criteria across scheduling, logging, history, and analytics workflows
- Designed local-first data/history behavior with stable IDs, sync/conflict semantics, and regression cases for offline edits, timestamps, invalid observations, and personal-best history; field-tested Android/Desktop fixes
- Built context-aware Trend/History/Consistency analytics and deterministic performance models; designed a GitHub-backed multi-worker **AI-assisted workflow** with explicit task contracts and verification gates

Student Lifecycle Decision-Support Platform

Mar-Jun 2026

Five-person academic MIS capstone | Python, APIs

- Designed the project's **34-table PostgreSQL schema/ERD** with UUID keys, foreign-key relationships, and junction tables for a normalized student-lifecycle data model
- Built a Python POC using min-max ranking, **OpenAI embeddings + cosine similarity + hard filters**, logistic-regression admission likelihood, and academic-risk workflows; co-developed API/data-flow and explainability concepts

CUSTOMER & STRATEGY WORK

Business Consulting Association, UW Bothell

Sep 2025-Jun 2026

Student Consultant / Case Competition Team Lead

- Completed **2 client engagements and 3 case competitions**, combining qualitative/quantitative research, stakeholder input, recommendations, and presentation development
- Combined interviews, community/history research, forums, and social sentiment for a regional credit-union client, synthesizing customer signals into partnership recommendations
- Contributed client scoping, progress communication, solution development, and final-deliverable QA across two consulting engagements

SKILLS

Product & operations: Requirements | acceptance criteria | process design | validation/experimentation | stakeholder coordination | customer-facing operations

Technical & AI: Python | SQL/PostgreSQL | relational data modeling | APIs | Kotlin/KMP | SQLDelight | Supabase/Postgres | Git/GitHub | regression testing | AI-assisted workflows

Data & validation: Relational modeling | regression testing | analytics rules | metrics/experimentation
