Finance & Analytics | Business Systems | Operations | Product | Consulting

PROFESSIONAL PROFILE

2026 University of Washington Bothell Business Administration graduate with evidence spanning finance and valuation, analytics/modeling, nonprofit operations, student consulting, process improvement, MIS/business systems, product requirements, SQL/PostgreSQL, Python and AI-assisted software development. This extended profile preserves breadth that is intentionally omitted from shorter job-specific resumes.

EDUCATION

University of Washington Bothell

Bachelor of Arts in Business Administration | Aug 2026 | GPA 3.64/4.00

- **Academic focus:** Finance and Management Information Systems; Annual Dean's List 2024-2025; Summer 2026 GPA 4.00 across 25 credits
- **Relevant coursework:** Investments, Financial Policy and Practice, Business Finance, Financial Institutions and Markets, Database Systems, Software Engineering, Data Visualization, Business Statistics, Operations and Project Management

PROFESSIONAL EXPERIENCE

United Indians of All Tribes Foundation

Garden Intern Supervisor | Seattle, WA | Nov 2023 - Nov 2025

- Digitized a paper volunteer-reporting workflow with online forms and Excel, reducing a full quarterly report from roughly **4-8 hours to about 40 minutes**; clean refresh/consolidation could take about 10-15 minutes
- Built controls using required fields, validation/error flags, correction workflows, formulas, PivotTables, Power Query, VBA/macros, conditional formatting, filters/tables, lookups, charts and forms integration
- Developed the proposal and budget for an **awarded \$73,000 King County WaterWorks grant**; coordinated purchasing/spend tracking and completed **8 quarterly compliance reports** across overlapping grant cycles
- Increased volunteer participation by approximately **70% year over year** and designed/led a **6-week internship for 8 interns** with structured plans, check-ins, feedback and performance metrics
- Coordinated volunteer schedules, garden operations and community programming with residents, staff and partner organizations; supported resident career-development activities

N&M Events

Event Staff / Operations Support | Kent, WA | Jun 2023 - Present | On-call family business

- Supported **50+ private, cultural and corporate events** for roughly 10-200 attendees through décor staging, venue setup, equipment, transportation, inventory, timelines and rapid day-of adjustments
- Worked directly with family operators, clients and event teams to interpret changing needs and execute setup/logistics on an as-needed basis

Chipotle Mexican Grill

Crew Member | Kent, WA | Sep 2022 - Jan 2024

- Served **100+ customers on typical busy shifts** while maintaining food quality, order accuracy, cleanliness and rush-period workflow

Bellevue Urban Garden

Garden Team Lead | Bellevue, WA | Feb 2021 - Mar 2022 | Unpaid internship/volunteer

- Supported landscaping/path work, waste management, seed collection and garden operations while taking team-lead responsibilities

CONSULTING & LEADERSHIP

Business Consulting Association - University of Washington Bothell

Student Consultant / Case Competition Team Lead | Sep 2025 - Jun 2026

- Completed **2 client engagements and 3 case competitions**, contributing research, analysis, scoping, solution development, presentation work and final-deliverable quality control
- **Sky Rivers Advisory**: researched comparable firms, competitors, clients, pricing and marketing approaches; helped develop recommendations and performed substantial final editing/QA. The client called the final deliverables “**five-star work**” and expressed interest in future collaboration
- **Regional credit-union client**: conducted interviews plus local-community, historical, online-forum/social-sentiment and partnership research; translated findings into recommendations around schools/community organizations, space use and local partnerships. Client feedback was strongly positive and indicated intent to use the work; implementation is unverified
- **Major League Volleyball**: served as formal team lead, consolidated market research/data, helped build a **10-year media-led growth roadmap around a \$20M capital opportunity / 3x valuation target** and developed presentation materials
- **Soybean/export case**: led an ad hoc replacement team after original teammates withdrew, delegated workstreams by strengths, analyzed target markets and synthesized trade, finance, marketing and contract research; the team did not advance
- **CIT airline case**: took analytical initiative under another formal lead on carrier positioning and market options including Vietnam, Singapore and Indonesia, focusing on difficult data gathering, solution development and analytical synthesis

Seattle Maharashtra Mandal

Student Events Volunteer | Redmond, WA | Feb 2020 - Mar 2023

- Supported cultural/community events for **200+ attendees**, including layouts, setup, attendee supervision and event flow

RESEARCH & FINANCE PROJECTS

Monte Carlo International Expansion Research

B BUS 499 Independent Study | Jun-Aug 2026 | Grade 4.0 | Faculty sponsor David Shaw

- Developed a Python Monte Carlo valuation framework for a **15-year, six-warehouse** international-expansion experiment covering **12 scenarios with 10,000 paths per scenario**
- Integrated **23 stochastic country variables**, empirical marginals, a 23×23 dependence matrix, FX/inflation, working capital, construction delay, dynamic WACC and strategy-specific financing continuation
- Separated a **21×21 AHP strategic-governance framework** from financial transmission rules so strategic importance was not misused as NPV sensitivity
- Compared Aggressive, Moderate and Organic rollout policies, modeling how financing capacity and retained cash change investment timing, downside and physical completion
- Validated the archived V5 model with **75/75 core checks, 22/22 inflation/FX checks, 60/60 financing invariants and 12/12 scenario reproductions**; used AI for technical support while retaining responsibility for sources, modeling decisions and interpretation

Costco Five-Warehouse Capital Budgeting

B BUS 451 Team Project | Primary analytical lead | Summer 2026 | Grade 4.0

- Completed most underlying research/modeling while teammates reviewed and double-checked the work; modeled merchandise and membership revenue, cannibalization, operating costs, CapEx, depreciation, working capital and salvage
- Evaluated a **\$128.91M initial investment** with **\$140.96M base NPV, 25.58% IRR and 8.18% WACC**; pessimistic/base/optimistic NPVs were approximately **\$3.99M / \$140.96M / \$326.13M**
- Recommended **100% internal financing** after assessing liquidity, cash generation and payout flexibility; the final model corrected earlier membership-revenue overlap and tax-rate treatment

Apple Fundamental Analysis & Equity Valuation

B BUS 454 Team Project | Valuation lead | Summer 2026 | Grade 4.0

- Led Part 3 valuation using FCFF discounted cash flow, dividend discount and peer P/E methods; final submitted values were **\$174.76/share, \$22.03 and \$140.55**, respectively
- Used a **9.01% WACC and 3.0% terminal growth** in the FCFF case and reconciled the valuation outputs with market context rather than averaging conflicting methods
- Performed extensive validation, citation cleanup and output reconciliation; corrected inconsistent data and standardized final report/presentation figures while broader ratio/common-size/DuPont analysis remained team work

STRATEGY, PRODUCT & BUSINESS SYSTEMS PROJECTS

Costco Singapore Market Entry

B BUS 480 Team Project | Mar-Jun 2026 | Grade 4.0

- Spearheaded the country-screening tool: structured/formatted the model, researched inputs, helped define criteria and validated scoring used to compare Singapore, South Korea and Japan; team scores were **7.50 / 6.25 / 5.35**
- Conducted pricing/financial research and contributed to membership-pricing, demand/revenue and startup-capital analysis; performed substantial cross-module QA, statistics validation and assumption/settings correction

UniPath Student Lifecycle Platform

B BUS 489 Five-Person MIS Capstone | Mar-Jun 2026 | Grade 3.9

- Personally designed a normalized **34-table PostgreSQL schema/ERD** with UUID primary keys, explicit foreign keys and junction relationships; design artifact, not production database
- Independently built the entire Python proof of concept for multidimensional ranking, semantic matching, calibrated logistic-regression admission estimates and academic-risk/early-warning workflows using synthetic/prepared data
- Co-developed the broader six-layer architecture, API/data-flow concepts, role-based user journeys and explainability/fallback/bias/privacy considerations; academic business model projected **\$356,300 Year 1 revenue, \$240,000 operating cost and \$116,300 surplus**

WEBTOON Strategic Management Capstone

B BUS 470 Four-Person Team Project | Summer 2026 | Grade 4.0

- Primary contributor for organizational structure; Five Forces, competitor/Blue Ocean/CSR analysis; company timeline; intra-firm value chain; and TMT/board matrix content
- Presented slides 4-6 and performed substantial citation reconciliation, formatting/background cleanup and cross-deck QA; broader strategy analysis remained shared

System - Personal Analytics Platform

Personal Product / Software Project | Aug 2026 - Present

- Developing a Kotlin Multiplatform Android/Desktop app with shared Compose UI, SQLDelight local persistence and Supabase/Postgres cloud sync
- Personally define product requirements, UI/design flows, analytics rules, offline/sync semantics, scope decisions and acceptance criteria across exercise/workout management, scheduling, logging, history and analytics
- Designed local-first behavior with stable record IDs, pending mutations, conflict handling and separate current/historical representations; read/modify Kotlin and SQL directly and repeatedly field-test Android/Desktop behavior
- Designed a GitHub-backed multi-worker relay/task-contract workflow for AI-assisted implementation, debugging, audits and test expansion; do not treat the codebase as wholly unaided hand-written engineering

ADDITIONAL TECHNICAL & PRODUCT WORK

CommuteWise

CSS 360 Software Engineering Team Project | 2026

- Contributed ideation, requirements consolidation across project phases, integration review, manual/user testing, bug identification and final release validation for a map-based commute-analysis web app using FastAPI and external map APIs; another teammate drove much implementation

CSS 475 Database Systems

PostgreSQL / SQL Coursework & Team Database/API Work | 2026

- Built/tested PostgreSQL/SQL functionality using schemas/ERDs, parameterized queries, joins, reads/writes, validation and Python-backed database APIs; coursework covered transactions and optimization

Visionaire Smart Glasses

B BUS 330 Four-Person Team Project | Sep-Dec 2025

- Focused on pricing/financing, startup costs, revenue/expense projections and break-even for an industrial AR smart-glasses concept; retained as early-stage product/finance evidence rather than advanced valuation
- Archived planning ranges from prior resume evidence included 25k-45k units over three years, \$10.75M-\$19.35M revenue, \$7.525M-\$13.545M gross profit, 34,150-unit break-even and 60-80% modeled ROI; original workbook has not been recovered

Tableau Data Visualization

Academic project

- Built a public academic Tableau visualization project; portfolio evidence available through the public Tableau profile

SKILLS

Finance & quantitative: DCF/FCFF, DDM, P/E/comps, NPV/IRR, CAPM/WACC, capital budgeting, scenario/sensitivity, Monte Carlo, pricing/break-even, working capital, terminal value

Excel & data workflow: formulas, PivotTables, Power Query, VBA/macros, validation, conditional formatting, filters/tables, lookups, charts, forms integration; Python, pandas, NumPy; SQL/PostgreSQL; Tableau; Power BI working knowledge

Systems & product: Kotlin/KMP, Compose Multiplatform, SQLDelight, Supabase/Postgres, relational modeling, APIs/data flow, offline/sync concepts, requirements, UI/UX, testing/regression, Git/GitHub, AI-assisted workflows; Java prior academic background

Consulting & delivery: market/competitive research, country screening, stakeholder/community research, pricing strategy, client recommendations, presentation/QA, process improvement, grant budgeting/reporting, program coordination

CREDENTIALS

Bloomberg Market Concepts (BMC) - completed

Business Analysis Techniques for Business Transformation - LinkedIn Learning, Jan 2026

Adult Mental Health First Aid, 2nd Edition - issued Sep 2024, expires Sep 2027

Adult/Child/Infant CPR, AED & First Aid - HSI - valid through Dec 2026
